

A New Bundle for EMI pre-compliance test August 07, 2020

The advertisement features the SIGLENT logo at the top left. The main headline reads "New Bundle for EMI pre-compliance test". On the left, a SIGLENT spectrum analyzer is shown. To its right is a plus sign, followed by a red-bordered box containing an EMI Measurement Kit (a small device with a screen) and three blue non-contact near-field probes. Below the kit, the price "€399" is displayed in large red font, with "(save up to €845)" in smaller text. To the right of the kit is a red "Order Now" button. At the bottom left, text reads "Newly purchased spectrum analyzers from SIGLENT (Include SSA3000X-R/SSA3000X/SSA3000X Plus/SVA1000X series)". At the bottom right, it says "All offers are valid until Jan 31st, 2021".

Since their introduction two years ago, the SIGLENT SVA1000X series spectrum & vector analyzers have become the “go-to” instrument for many electrical engineers. Among the more powerful features of the SVA1000X has been the EMI Measurement Kit (SVA1000X-EMI).

For a limited time, we have created a new bundle to make testing even more affordable. This new bundle is ideal for EMI pre-compliance testing and includes the EMI Measurement Kit and the SRF5030T non-contact near-field probes priced at a discount when purchased with any model of SIGLENT spectrum analyzers.

When purchased separately, the combined cost of the EMI Measurement Kit and SRF5030T is up to €1244. When included with an SIGLENT spectrum analyzer, both are included for only €399! Save up to €845!

The EMI Measurement Kit includes an EMI Filter, Quasipeak detector, and EMI test bandwidth settings. It also activates the EMI test options in our free EasySpectrum Software. Together, this bundle will help you hunt down those difficult pre-compliance issues quickly!

Bundle pricing only available when included with the purchase of a new SIGLENT spectrum analyzer, which you can choose from SSA3000X-R, SSA3000X, SSA3000X Plus and SVA1000X series. All offers are valid until January 31st, 2021.

SIGLENT TECHNOLOGIES reserves the right to all final decisions related to this campaign.
